

FOREIGN BROADCAST INFORMATION SERVICE
HONG KONG BUREAU

MHK-5018
1 October 1985

MEMORANDUM FOR: Director, Foreign Broadcast Information Service
THROUGH : Chief, Operations Group
SUBJECT : Monthly Report--Hong Kong Bureau--September 1985

I. GENERAL

A. For the first time in its 140 years of colonial rule, Hong Kong has elected legislators. Indirect elections to fill a number of newly-created seats in the Legislative Council, the colony's lawmaking body, were held last week, with 24 candidates winning seats for a 3-year term. Previously, all Legislative Council seats were by appointment.

B. The Hong Kong Government and textile manufacturers continued during the month to lobby against the controversial Jenkins textile bill. Textiles and garments account for nearly 40 percent of Hong Kong's overseas sales, a large part of which go to the U.S. The Jenkins bill, if it passes Congress and survives the Reagan veto, will have a major impact on Hong Kong's economy.

C. Renewed confidence in Hong Kong real estate during the past year has led to increased property values and rents. Rent increases for the bureau, though, have not been unreasonable. Leases on two of our apartments were renewed this summer at an average increase of 10.5 percent. Both leases are good for 2 years. On a related subject, the Consulate's controversial and much-delayed Shousan Hill apartment building has finally been completed and declared ready for occupancy. Some newly arrived families, mostly belonging to the Defense Liaison Office, have been assigned to that building. Work on the larger Consulate apartment complex in the mid-levels is still continuing, with no word on when it will be ready.

II. OPERATIONS

A. Monitorial/Editorial

1. The major focus of the bureau's operations this month was the long-awaited conference of party delegates of China's communist party. As expected, many younger party members were moved up to positions on the Central Committee, the Politburo, and the Secretariat. Most of the reports and announcements from the conference were provided by XINHUA and covered by Okinawa Bureau. Our bureau provided supplementary reporting from the Hong Kong leftist press and Hong Kong XINHUA service, as well as editorial reports based on television coverage of the event. Reaction to the conference is now appearing in the provincial media.

2. The bureau contributed to FBIS coverage of the Thai coup attempt on 9 September. Some 17 items, mostly from our coverage of AFP, ran on the Wire.

3. AFP coverage also figured prominently in the bureau's reporting on the latest developments in the Greenpeace ship sinking incident. The news service provided extensive coverage of the day-by-day revelations of French Government complicity, as well as reaction from New Zealand. AFP and our coverage of the Wellington POST also enabled the bureau to provide good reporting on the latest turn of events in U.S.-New Zealand relations. The Wire ran several POST pieces on the visit to the U.S. by New Zealand Foreign Minister Palmer and his less-than-successful talks there.

STAT

4. Chief monitor [] left on EOT leave in early September, and will return next week. [] contribution to bureau output, both translating and editing, was sorely missed, with others having to pickup the heavy workload that he customarily handles on his own.

B. Communications

The bureau's communications circuit continued to show improved reliability following the Clark-Guam upgrade that took place in late July. The number of requests for refiles and incoming messages with garbles remained substantially less than before the upgrade.

C. Lateral Services

1. At the request of the deputy consul general, the bureau provided the Mexican Consulate in Hong Kong with copies of all available press reports on the Mexico City earthquake. The Consulate had no communications with Mexico City for the first several days following the earthquake, depending almost entirely on local news reports. The Consulate provided a courier to pick up copies of the bureau's AFP reports, as well as AFP and other reports incoming from other bureaus. The bureau also provided the U.S. consul general's office with the initial reports of damage to the U.S. Embassy in Mexico City.

2. The U.S. Embassy in Wellington requested that FBIS discontinue filing to them all routine FBIS reports on New Zealand. This request was passed on to LRB, and the bureau is now sending them only priority AFP or other non-New Zealand press materials. Due to current reception difficulties, the bureau is presently unable to cover Wellington radio.

D. Technical

Communication Services Limited, the firm that is supplying the bureau's terminal equipment for the microwave backup circuit, reported last Friday that one of the two terminal packages had arrived in Hong Kong. Our techs will meet with CSL personnel this week and examine the equipment. The other terminal is expected to be delivered in a few weeks. Installation of the conduit to house the cable for this circuit is now underway at the bureau, with completion expected tomorrow. Installation of the conduit at Mt. Butler will get underway next week.

III. ADMINISTRATION

Personnel:

1. New associate editor [] EODed on 19 September. [] replaces [] who resigned effective 31 August.
 2. Monitor supervisor [] returned to work half-days on 16 September after a lengthy absence following major surgery. [] expects to return to full-time duty this week.
 3. The bureau "family" grew in size by two this month, with a daughter being born to monitor [] and a son to senior teletypist [].
 4. Effective 1 October, Hong Kong per diem will be increased from \$119 to \$125. TLA/SPA daily rates were increased from \$55 to \$70 earlier this summer. The new rates reflect the increased cost of temporary accommodations in Hong Kong. Many hotels have increased their rates by 20 percent over last year. This increase is largely due to a current shortage of hotel rooms.

IV. VISITS
